Finance options

Buying a new motorcycle is one of life's greatest pleasures. Choosing the right model is a major decision and equally, deciding on the best way to finance your purchase is just as important.

Black Horse has a selection of finance options which are likely to fit your budget. To help you make the right choice we have listed a few questions to ask yourself before you decide upon your options.

How much can I afford?

It's important to work out how much you need to finance to buy your new motorcycle. The larger your deposit, the less you'll need to borrow, but you should remember to budget for any accessories you may wish to add.

How much do I want my regular payments to be?

There are several matters to consider to ensure your payments fit in with your budget - the amount of deposit you put down and over how long a period you wish to finance your purchase.
